ABOUT ME

I hold a Master's degree in Computer Science from Bialystok University of Technology and have over two years of experience working as an Android Developer. I specialize in building native Android applications using both Java and Kotlin. I am open, communicative, and organized, always striving to enhance my skills. My practical experience is showcased in my portfolio.

SKILLS

- Android Development: Creating mobile applications for the Android platform
- Programming Languages: Java, Kotlin
- Architectural Patterns: MVVM, Clean Architecture
- Libraries: Room, OkHttp, Retrofit, Hilt, View Binding
- UI: Building interfaces in XML and basic knowledge of Jetpack Compose
- Knowledge: LiveData, ExecutorService, Firebase (Crashlytics, Cloud Messaging)
- Tools: Android Studio, Jira, SourceTree, Git, GitHub, Postman
